

After Stock-Taking Bargains

ON TUESDAY, we enter upon the third week of our after stock-taking sale. The success of this sale has been far beyond our expectations, and the warm response spurs us to greater efforts. During the rush of last week, many lines were not shown; others have been sold down to two of this and three of that. The mark-down man has been busy going through all these lines, and has played havoc with Prices. Below are a few of the many offerings for the week; there are many others in lots too small to advertise. Come in and see them.

HOUSE AMENDS BANKRUPTCY LAW

Passes Bill To Correct Inequalities In Country

Washington, Feb. 6.—After devoting almost its entire session considering the subject, the house today passed a bill making several amendments to the national bankruptcy law. Clayton of Alabama made a desperate but unsuccessful attempt to secure the repeal of the law, he and his supporters claiming that it had served its purpose.

The bill is designed to correct certain inequalities in the administration of the bankruptcy law in various parts of the country and amends the statute by regulating the duties and compensation of receivers in order to prevent excessive fees. It also provides that any moneyed business or commercial corporation, except a municipal railroad or banking corporation, can file a petition for bankruptcy, thereby eliminating the discrepancy that has heretofore existed when some court decisions barred many corporations in one circuit that would be admitted to bankruptcy in another.

Restores Act of 1867.

The bill restores the language of the act of 1867, which has been settled by decisions of the courts. It provides further that in any composition proceedings it would not be necessary to have an adjudication where the composition is effected, thereby removing the stigma of bankruptcy that always attaches under such circumstances. It prevents a few creditors from forcing, by involuntary proceedings, a debtor into bankruptcy and then, after receiving secretly their additional compensation or otherwise adjusting their affairs with bankers, to have the petition dismissed without the knowledge of the other creditors.

Lessens the Expense.

It enables a trustee, with the consent of the creditors, to appear in their behalf in proceedings in court connected with his discharge, thereby lessening the expense by separating it from the whole estate. It confers ancillary jurisdiction so that all the assets of the estate can be marshaled substantially in one court, thereby obviating the filing of suits in different courts where the property may happen to lie. It provides also that if a creditor has reasonable cause to believe that he is receiving a preference that shall be a bar to the debtor's discharge.

With practically no debate the message of the president vetoing the census bill and the bill itself were submitted to the committee for action.

PACIFIC TENNIS CLUB ELECTS OFFICERS

A number of the recently arrived Army officers were elected to membership, two of whom at least, Captain Low and Lieutenant Moses, will add greatly to the interest of the coming spring tournament by their fine play.
